

LC Physics and Chemistry	Development Group meeting #4: 06.02.25
	Short description
Agenda item	Notes
Rationale and Aims	The group reviewed their desired intentions for the subject, which have been drafted into the Rationale and Aims. Group members reviewed the draft Rationale and Aims and offered feedback for further edits.
Key competencies	The group reviewed the Key Competencies in Senior Cycle and how they might be expressed in LC Physics and Chemistry, and identified attributes within each competency that may be realised in an authentic manner through students' engagement with the subject.
Proposed structure	The group reviewed the draft structure of the specification with an emphasis on coherence with the Rationale and Aims.
Next steps	<p>Next meeting: Wednesday, 5th March, 2025.</p> <p>The Chair reflected on the work of the meeting and thanked the members for their attendance and contributions.</p>
