

LC Physics and Chemistry	Development Group meeting #5: 05.03.25 Short description
Agenda item	Notes
Rationale and aims	The group reviewed their desired intentions for the subject, which have been drafted into the rationale and aims. Group members reviewed the draft rationale and aims and offered feedback for further edits.
Key competencies	The group continued to review Key Competencies in Senior Cycle and how they might be expressed in LC Physics and Chemistry. The group looked at emerging themes across the key competencies, as relevant to the development of LC Physics and Chemistry
Draft unifying strand	The group reviewed a draft unifying strand for LC Physics and Chemistry.
Strands of study	The group considered the draft concepts in the contextual strands and offered feedback which would help in the development of a criteria for prioritisation of learning.
Next steps	Next Meeting: Thursday, 3 rd April, 2025 The Chair reflected on the work of the meeting and thanked the members for their attendance and contributions.
