

Senior Cycle Design and Communication Graphics	Development Group Meeting 6 24 March 2025 Short Description
Agenda Item	Notes
Welcome by the Chair, minutes of the last meetings	The minutes of the last meeting were discussed and adopted.
Updates	The online consultation on the Background Paper for DCG has closed. Updates were given regarding the public consultation on the draft LC Construction Technology and Engineering specifications.
Feedback from the draft learning outcomes	Members reviewed the draft learning outcomes developed to date and considered further opportunities to refine language.
Exploring the AAC in DCG	<p>Members considered many aspects on the AAC including what it should value in terms of student learning, pedagogical approaches, and overall manageability.</p> <p>They highlighted that the AAC should support students in understanding and applying geometry as a foundation for exploring real world problems. Key skills identified included research, design, sketching, CAD, critical analysis, self-evaluation, and time and self-management.</p> <p>Other areas of discussion included the coherence of teaching, learning, and assessment in the subject, the format of the AAC, resourcing, and CPD supports.</p>
Next steps and next meeting	<p>The chair reflected on the work done and thanked the members for their attendance and contributions.</p> <p>Next Meeting: 30 April 2025</p>
